

I am an over-the-road truck driver and depend on the radio as my most important source of entertainment. Weather and traffic updates are vital to my on time deliveries, which ultimately affect my livelihood. As I also travel to remote locations, regular radio service is not available. I choose to subscribe to XM Satellite Radio so that I may have a constant flow of information and entertainment and do not feel it is in my best interest for the National Association of Broadcasters to determine what I can and cannot listen to. I urge the FCC to reject the NAB's petition 04-160 and to support XM Radio's ability to provide the programming that I demand, deserve and willingly pay a monthly subscription fee so that I may have it. Thank you for your time and consideration.
